

Ready, Set, Headshot!

What to expect having your headshot taken

What to Wear for Headshots: Dress to Impress!

Opt for clean, pressed clothes and bring a couple of outfit options, such as a stylish blazer, to add variety. Stick to solid colours for a polished look, and ensure your hair is neatly groomed. Remember, you're aiming for that "news reader" look—just from the shoulders up! There's no pressure for a full head to toe outfit.

Timing:

Portrait sessions are scheduled in 15-minute intervals. While the actual photography may only take 5 or 10 minutes per person, this timeframe allows for flexibility. Whether you prefer a quick shot or need a moment to review and adjust your photo, 15 minutes ensures ample time for your session.

What to Expect

Let's work together to capture the perfect shot! Feel free to share your ideas and preferences during the shoot. Want to see how the photos are turning out? You're welcome to take a look and provide feedback along the way.

Etiquette

Kindly respect the privacy of your colleagues during the shoot. While waiting for your turn, please refrain from watching others being photographed, as it can make people nervous. However, if you're good friends and would like to offer support to each other, feel free to join in and make the experience fun!

Photo Delivery

Your selected portraits will be available for viewing, sharing, and downloading through our online gallery link.
